

Inventor: Frank Poma
Serial No. 10/064,075
July 30, 2004

Amendments to the Specification:

Please replace the last two sentences in the paragraph at the top of page seven with the following rewritten sentences:

-- As the panel 10 is formed, or after it has cured, any number of ~~fa-e-ades~~ facades may be imprinted on or attached to the outer surface of the panels. For example, the concrete may be stamped with a repeating or one-time aesthetic pattern; river rock or other aggregate may be affixed to the panel or liners or channels may be formed onto the outer surface of the panel.--
